

City Watch Registrations

The Municipality of Yarmouth and the Town of Yarmouth have installed a Computer Alert System called City Watch. This is to be used in emergency situations and for other notifications that may be of importance to the community.

When completing the form, your name would be useful, but it is essential to have your location. In case of an emergency evacuation it will be carried out by your location.

Your information will be in a secure data base located in the Emergency Management Office and only used in the event of an emergency. If we are unable to get in touch with you, we won't be able to inform you of the actions you should take and why.

Please complete this form, put it in a sealed envelope marked confidential, and either mail it to:

Emergency Management Office
